

SKANSKA

Care for Life 5

Human-Machine Interface (HMI)
Energized Systems • Line of Fire
Falls • Lifting Operations

Control human-machine interface (HMI).

Verify isolation and zero energy before work begins.

Keep yourself and others out of the line of fire.

Protect against falls when working at height.

Plan lifting operations and control areas.

Please scan this code to visit our toolkit and see an expanded list of actions for each focus area.

SKANSKA

Field Engagement Tips

- Engage a crew member by introducing yourself or making a positive observation
- Ask a leading question like, what are you working on today? Or, how can Skanska improve safety?
- Remember colleagues' names and interests to foster relationships
- Help reinforce Skanska's safety expectation through your actions and words
- Communicate with leadership around feedback and action items from the field
- Recognize and champion positive work through words of affirmation
- Put these Field Engagement Tips into practice in the following environments:

Stretch & Flex

Site Walks

Orientation

Crew Reviews

Meetings/Trainings
