

SKANSKA

Sports and Entertainment

Sports and Entertainment

People are drawn to sports and entertainment facilities to touch greatness, to watch history unfold in a heartbeat, to feel the thrill of victory. Places where fans can unite and be part of the action are the cultural hub of communities, and Skanska takes pride in building these inspiring venues. We have partnered with our clients for almost four decades, and our priorities have never changed.

We build for fan enjoyment. We provide venues that allow fans to immerse themselves in the excitement while performers and athletes captivate the crowd. These settings are designed and constructed to create an atmosphere where people can cheer, play and celebrate. Skanska brings in-depth expertise to ensure the facility enriches the experience, offering fans a level of convenience that surpasses expectations.

We build for the future. By tracking innovative product developments, we provide the knowledge to improve your project outcomes with an advanced facility, better quality and a higher return on investment for years to come. We study building feasibility, total cost of ownership and energy efficiency to evaluate your facility and assure a project outcome that meets your current needs, budget and future growth.

We build for you. Listening to your vision, goals and concerns, we partner with you to provide operational solutions and create memorable experiences. Skanska anticipates your needs and incorporates the background details necessary to seamlessly support your operations. We bring the right mix of passion, knowledge and enthusiasm to build your vision, delivering more than just an exceptional facility.

We build what matters.

Client Testimonial

"We operate an entertainment venue. There is no margin of error for being late or over budget. Speed to market is essential in our business. Skanska delivered a well thought-out plan, backed up by top-notch leadership and management."

Mark Lamping,
Former President and CEO
MetLife Stadium Company, LLC.
