

Skanska Serves the Transportation Industry

Skanska has long been an innovator in delivering projects using alternative delivery methods. We are able to leverage our dedicated Infrastructure Development Unit, access to capital and extensive financial resources to provide owners and clients with multiple options to get a project financed, designed and built in a timely and cost-effective manner.

Skanska

Everyone has the right to go home safe from work to their families every day. At Skanska, we believe it's our duty to ensure that happens.

Our Values

Care for Life

We care for life of people and the environment. We work safely, or not at all. We never walk by if we notice unsafe actions. We support health and well-being. We promote green solutions and conduct our operations in a green way. We are accountable to future generations.

Act Ethically and Transparently

We do business with a high degree of integrity and transparency. We live by our Code of Conduct and never accept shortcuts. We foster a working climate where everyone can speak their mind.

Be Better – Together

We always strive to be better in all we do. We are a learning organization and generously share our expertise. We take pride in quality and innovation. We build One Skanska teams together with customers, partners and communities. We leverage diversity to deliver the best solutions. We foster an inclusive culture where we are open and fair, showing trust and respect for each other.

Commit to Customers

We help our customers to be successful in their business. We strive to understand their needs and their customers' needs. We are here to help our customers turn their visions into reality.

About Skanska

- #3 Largest Heavy Contractor (ENR)
- #5 in Transportation (ENR)
- ISO 14001 and OSHAS 18001 certified
- Industry Leading Safety Record
- Engineering and Fabrication Services
- Design-Build expertise
- Public Private Partnerships expertise
- State-of-the-art construction management systems
- 33 offices in the U.S.
- Over 10,000 U.S. employees and 58,000 worldwide

We realize in today's competitive marketplace that the burden has been placed on the Skanska team to set ourselves apart from the competition. We welcome the challenge!

As an example, we are among the first U.S. construction firms to have all operations ISO 14001 certified, a global standard for environmental performance.

When you consider our credentials, our culture, our past successes and our financials, we think you'll realize that a Skanska team is a powerful resource.

We're working hard everyday to construct and rehabilitate our nation's vital infrastructure. We're not just building roads and bridges, we're building what matters to improve lives now and for generations to come.

Client: Florida Dept. of Transportation

Value: \$2.3 billion

I-4 Ultimate, Orlando, FL. Public-Private Partnership for improvements to the Interstate 4. Involves widening of 21 miles of highway to accommodate new express lanes, construction of more than 140 bridges, and other highway improvements.

Client: New York State Dept. of Transportation

Value: \$555 million

Kosciuszko Bridge Project – Phase I, Queens and Kings County, NY. Design-Build project for the construction of a new cable-stayed bridge and approaches to improve traffic safety and reduce traffic congestion.

Client: South Carolina Dept. of Transportation

Value: \$541 million

Arthur J. Ravenel (Cooper River) Bridge, Charleston, SC. Construction of the new 8-lane, 2.5-mile bridge was completed one year ahead of schedule. The Design-Build project was fast-tracked with a design and construction duration of 48 months.

Client: District Dept. of Transportation

Value: \$260 million

11th Street Corridor/Bridges, Washington, D.C. Design-Build project for the construction of three major bridge crossings and adjacent interchanges to connect the communities along 11th Street and the Anacostia River.

Client: Washington Dept. of Transportation

Value: \$122 million

Alaskan Way Viaduct, Seattle, WA. Demolition and new construction of a viaduct including provision of a temporary steel bridge and precast train bridge over utilities. The project was completed under budget and 10 months ahead of schedule.

Client: California Dept. of Transportation

Value: \$171 million

I-215 Segments 1&2, San Bernardino, CA. Widening of 14 miles of the freeway to create two additional HOV lanes. The major freeway serves as a commuter corridor and a Super Truck Route.
